

3354:1-30-05 Collegewide participatory governance policy.

- (A) The College acknowledges the critical role that open, frank, and orderly communication plays in the achievement of the College's mission, vision, values, and goals. To encourage and foster such communication, the College shall maintain a governance system.
- (B) The governance system shall include committees charged with providing advice and recommendations on behalf of various College constituencies. Each committee will elect its own chair and secretary and will function as a committee for two years.
- (C) Committees shall receive annual charges from the College President. Committees may receive special charges from the President related to particular issues that need timely attention. Committees may also develop their own charges, subject to the prior approval of the President.
- (D) The College acknowledges that the full-time faculty has formed a "Faculty Senate" through which the full-time faculty prefers to communicate certain advice and recommendations to the governance system.
- (E) The President or the President's designee is hereby directed to take all steps necessary and appropriate for the effective implementation of this policy.

Effective date: July 31, 2006
